OUR COMPANY

Approach

Start with restrooms → expand to full travel orchestration including flights, stays, transport, and activities

Founded

Restfree began by solving the critical need for safe, accessible restrooms while traveling.

Mission

Transform everyday needs into a seamless, AI-powered travel experience.

Vision

build the world's first AI travel companion that plans and executes trips end-to-end

Restfree.in

PROBLEMS

Fragmented Experience:

Planning a trip today means juggling multiple apps for flights, hotels, activities, and navigation. Travelers waste hours switching between platforms, comparing options, and managing bookings all just to organize one journey.

Unmet Everyday Needs

Despite all the tech around us, basic travel comforts like locating safe, clean restrooms or reliable rest stops remain frustratingly unresolved. This not only affects comfort but also adds unnecessary stress, especially during long journeys.

Overwhelmed Travelers

With too many choices and no unified guidance, travelers face decision fatigue, wasted time, and inflated costs. Current platforms merely list options – they don't think, plan, or execute for the user, leaving the travel experience far from seamless.

Restfree.in

OPPORTUNITY * WE SAW

Global travel economy $\approx$ \$9.5T; digital travel services growing rapidly.

AI personalization and orchestration is a high-growth vertical.

Opportunity: convert everyday utility into a travel orchestration platform

WHY NOW MATTERS

With technology matured and travelers seeking simplicity, there's never been a better time to merge AI and travel into a single, intelligent experience.

AI Meets Travel

Generative AI and robust travel APIs now make true end-to-end orchestration possible

Market is Ready

Post-pandemic demand, mobile-first behavior, and reduced integration friction create perfect conditions for one unified travel companion.

SOLUTIONS

Starting with something as essential as restroom access, Restfree evolves into a complete AI-powered travel companion — simplifying planning, execution, and assistance for a truly seamless journey.

Phase 1:

Build a verified restroom network through partnered hotels, cafés, and restaurants.

Phase 2:

Introduce one-tap AI trip planning with budget-based recommendations.

End-to-End Execution:

Automate bookings for flights, trains, cabs, stays, and activities.

Smart Assistance:

Enable real-time re-planning and on-trip support for travelers.

PRODUCT FLOW

FROM IDEA TO EXECUTION IN ONE TAP

- Enter budget & preferences (duration, comfort, interests).
- AI generates tailored trip experiences (below / within / above budget).
- One-tap booking – flights, trains, cabs, stays, experiences.
- AI handles changes & on-trip execution – real-time updates.

HOW RESTFREE MAKES MONEY

BUILT-IN MONETIZATION: WE EARN AS YOU TRAVEL.

- Commission on travel bookings (flights, hotels, trains).
- Premium AI Concierge subscription (monthly/yearly).
- Data-driven B2B partnerships (tourism boards, hospitality).
- Partner listings & sponsored placements (venues & brands).
- Restfree Wallet: fees on transactions + loyalty monetization.

COMPETITIVE POSITIONING

- **Competitors:** MakeMyTrip, Google Trips, TripAdvisor — they list & compare.
- **Restfree differentiator:** AI + real-world restroom ecosystem + execution.
- **Unique moat:** verified physical network + behavior-driven personalization.
- **Quick chart:** Smart vs Execution (Restfree in top-right)

- **Restfree Market Capture**
- Verified restroom network + AI.
- Behavior-driven hygiene personalization.
- Partnerships for rapid expansion.

GTM STRATEGY

- **Digital:** targeted social + influencer campaigns for female, family, traveler segments.
- **Partnerships:** travel aggregators, mobility APIs, tourism boards.
- **Virality:** in-app referrals, corporate tie-ups, campus programs.

- **Phase A:** Restroom-first local rollout — daily utility drives repeat usage.
- **Field BD:** local teams onboard venues, local incentives, co-marketing.

TECH & AI STRUCTURE

Trip Orchestration Engine

budget-aware itinerary
generator

Personalization layer

preferences, behavior, and
context signals

Integrations

flights, hotels, trains,
rides, maps, payments via
APIs.

Security & compliance

secure payments, data
privacy, localization

PRODUCT & EXPANSION TIMELINE

2025 Q4

Pan-India launch (top 100 cities) + restroom network 10K venues

2026

AI Companion v1: budget-based planning + booking integrations.

2027

Restfree Wallet + AI Companion V2(Realtime Personalization).

2028

Global scale + multilingual AI + strategic partnerships.

Restfree.in

FINANCIAL SNAPSHOT (3Y)

BUILT-IN MONETIZATION: WE EARN AS YOU TRAVEL.

- **Year 1:** Focus on growth — users, venue onboarding; low revenue, high CAC.
- **Year 2:** Monetization ramp — commissions, subscription revenue begins.
- **Year 3:** Scale & unit-economics improvement — positive contribution margin.
- KPI highlights to include: user growth, ARPU, take-rate, CAC payback, gross margin.
